Judges Scoring Notes: Players may throw from either side of the field. Place a tally mark in each field zone as catches are made. Mark tallies in the "out of zone catches" or "misses" boxes as they are completed. At the end of the round, mark whether "Time Warp" is completed (Catch is made in all three zones and human, dog, and disc are back at start line prior to time expiring). If "Time Warp" is completed, document the time remaining (from 60 seconds). Mark achievements. Calculate final score as shown below.
